

# 2023 UK ENVIRONMENTAL PERFORMANCE DATA

## Organisation & Boundary

An operational control approach has been used in order to define the organisational boundary and is the basis for determining the Scope 1, Scope 2 and Scope 3 emissions for which the BNP Paribas Group is responsible. The data contained within this report covers a 12-month period from from 01/10/2022 to 30/09/2023 and covers 100% of the UK FTE workforce managed at 31 December 2023. The data collection, processing and verification periods do not allow reporting on a current calendar year.

## Methodology

An environmental reporting system is in place across the BNP Paribas Group to quantify and calculate the Greenhouse Gas (GHG) emissions associated with its operations. An internal protocol is reviewed and communicated annually to all employees contributing to this reporting. The measuring and reporting of environmental performance data is carried out in line with the GHG Protocol issued by the WRI and WBCSD, the general principles of the GRI and ISO standards on environmental communication. Where available data covers only part of the reporting scope, missing data has been extrapolated using a uniform methodology across the BNP Paribas Group. For energy, if there is a value for at least one reporting unit at country level, it is used to calculate the ratio m2/building type and this country ratio is then applied. For business travel, similarly this is extrapolated using a country ratio/FTE approach.

Deloitte has verified the data contained in this performance summary to a reasonable level of assurance.

## 2023 UK<sup>1</sup> ENVIRONMENTAL PERFORMANCE DATA

| Absolute GHG Emissions   |  | UK TERRITORY |
|--|--|--------------|
| Scope 1: Direct GHG emissions from natural gas and fuel purchased for emergency generators (tCO2e)                       |  | 1270.87      |
| Scope 2: Indirect GHG emissions from purchased electricity and district heat (tCO2e)                                     | Market-based   | 104.94       |
|  | Location-based   | 8030.22      |
| Total Scope 1 and 2 (tCO2e)  | Market-based   | 1375.81      |
|  | Location-based   | 9301.09      |
| Scope 3: Indirect emissions from business travel including air, rail, company-leased and employee-owned vehicles (tCO2e) |  | 15951.93     |
| <b>Total Scope 1, 2 &amp; 3 (tCO2e)</b>  | Location-based   | 25253.02     |
| Emissions Intensity  |  |              |
| Total emissions intensity (tCO2e per FTE)  | Scopes 1, 2 and 3 location-based emissions per full-time equivalent employee | 3.22         |

<sup>1</sup>BNP Paribas Corporate & Institutional Banking, BNP Paribas Asset Management, BNP Paribas Arval, BNP Paribas Asset Management, BNP Paribas Real Estate, BNP Paribas Leasing Solutions, BNP Paribas Commercial Finance, BNP Paribas Personal Finance & Stellantis Financial Services UK Ltd (Joint Venture).

| Absolute Energy Consumption  |  | UK TERRITORY |
|--|--|--------------|
| Natural gas (kWh)  |  | 5,969,687    |
| Fuel delivered for emergency power units (kWh)   |  | 231,345      |
| Electricity (kWh)  |  | 39,354,943   |
| District Heat (kWh)  |  | 8,933        |
| <b>Total Energy Consumption (corresponding to Scope 1 &amp; Scope 2 emissions) (kWh)</b> |  | 45,564,908   |
| Energy Intensity   |  |              |
| Occupied premises energy intensity (kWh per m2)  | Scope 1 & 2 Energy Consumption from occupied premises per m2 of floor area | 421          |

| Paper Consumption                    |  | UK TERRITORY |
|--------------------------------------|--|--------------|
| Total Paper Consumption (tonnes)     |  | 108          |
| Total Paper Consumption per FTE (kg) |  | 14           |
| Responsible Paper Purchased (%)      |  | 99%          |

2023 Emission Factors applied; Scope 1: GHG Protocol tool for stationary combustion. Version 4.1. Scope 2: Electricity Location-based IEA (CO2 Highlights) 2023 – Données 2021; Market based AIB European Residual Mixes 2022. District Heating GHG Protocol tool for stationary combustion. Version 4.1 Scope 3: Air & Road UK DEFRA, Passenger Vehicles 2023. Rail WRI, GHG Emission Factors Compilation, table 22.

2023 ENVIRONMENTAL PERFORMANCE DATA DISCLOSED IN ORDER TO COMPLY WITH THE UK STREAMLINED ENERGY & CARBON REPORTING (SECR) REQUIREMENTS:

| Absolute Emissions   |   | Arval  | Asset Management | Leasing Solutions | Personal Finance | Real Estate |
|--|---|--------|------------------|-------------------|------------------|-------------|
| Scope 1: Direct GHG emissions from natural gas and fuel delivered for emergency generators (tCO2e)                       |   | 354.22 | 18.92            | 78.61             | 57.97            | 189.78      |
| Scope 2: Indirect GHG emissions from purchased electricity and district heat (tCO2e)                                     | Market-based  | 0      | 0                | 0.00              | 0                | 50.03       |
|  | Location-based  | 237.46 | 155.01           | 75.37             | 61.64            | 623.37      |
| <b>Total Scope 1 and 2 (tCO2e)</b>   | Market-based  | 354.22 | 18.92            | 78.61             | 57.97            | 239.82      |
|  | Location-based  | 591.68 | 173.93           | 153.98            | 119.61           | 813.16      |
| Scope 3: Indirect emissions from business travel including air, rail, company-leased and employee-owned vehicles (tCO2e) |   | 126.48 | 537.08           | 282.28            | 77.87            | 719.34      |
| <b>Total Scope 1, 2 &amp; 3 (tCO2e)</b>  | Location-based  | 718.16 | 711.01           | 436.26            | 197.49           | 1532.49     |

On 3 April 2023, the sole shareholder of Vauxhall Finance plc, Opel Bank SA, acquired the shares of PSA Finance UK Limited. At the point of the acquisition, PSA Finance UK Limited and Vauxhall Finance plc became sister companies. Shortly thereafter, PSA Finance UK Limited changed its name to Stellantis Financial Services UK Limited.

On 4 April 2023, Vauxhall Finance plc and Stellantis Financial Services UK Limited entered into a business transfer agreement whereby Vauxhall Finance plc sold its entire trade and assets (subject to certain technical exclusions) to Stellantis Financial Services UK Limited.

Stellantis Financial Services UK Limited is now the exclusive captive finance company for all Stellantis brands in the UK and Vauxhall Finance Limited (formerly Vauxhall Finance plc) will be liquidated in due course.

For the purpose of complying with SECR;

Reporting period for Vauxhall Finance Limited covers 01/01/2023 – 31/03/2023. Energy data is based on the average kWh consumed over the 12-month reporting period for all sites occupied before the transfer and pro-rated to 90 days. Similarly, business travel has been calculated based on average km travelled per FTE over the 12-month reporting period and pro-rated based on FTE at the time of the transfer and covers 90 days.

Stellantis Financial Services UK Limited is inclusive of all data captured under the 12-month reporting period, when the above deduction for Vauxhall Finance Limited is taken into account.
